Submit Images to a Competition

Show Me How

Competition: Creative Projected Images

Competition Date: Monday, February 07, 2011

Competition Type: Creative Projected Images

Competition Level: Advanced

Maximum pixel width for images: 1050
Maximum pixel height for images: 1050
Note: The Image Resolution (pixels per inch or centimeter) does not matter and is never used. If you submit an image larger than the maximum dimensions allowed, the image will be re-sized down to the maximum allowed. This is done using high quality bicubic interpolation, but you have more options for this process if you do it in Photoshop or a similar program.

Submissions will be automatically converted to an sRGB profile when displayed on this website. The Image Competition Manager program properly handles imbedded profiles.

Competition Definition

Creative photography is producing an image through the use of imaginative skill or originality of thought including the altering of reality. No image should be eliminated from competition simply because it looks realistic, provided it shows originality of concept. Creative images may include modifications in the darkroom, on the computer, or in the camera, as well as unusual points of view, imaginative use of subject matter or lighting, or any other presentation that begins with the maker's photograph or a collection of photographs.

Images are judged both for their technical and pictorial merit. The image should have strong composition, pleasing quality, and color, texture, pattern, and/or tone impact. The appropriateness of the technique selected to create altered reality is considered in judging. The content is unrestricted.

Add a New Image

Image

Upload an Image File.

You are only required to upload an image for a Digital Image Type. Prints and Slide images do not require an image file, but one can be supplied to allow the image to be represented on the website and in competition shows.

Use the "Select" button below to select the file to upload. The upload will start immediately, allowing you to fill in the rest of the form while the file is uploading. Your file will not be saved, however, until you click the "Add This Image" button below. You must wait until the upload completes before you click the button. Your best uploading experience occurs when Silverlight is installed.

Most image uses specify a maximum image size in pixels. If you exceed the maximum size allowed, your upload time will be unnecessarily long and your image will be resized after the upload completes. If your image size exceeds the maximum size allowed for the website, you will see an error message and the file will not be uploaded.

Click here for information on how to resize an image.

Your file name must end with ".jpg" or ".jpeg" to identify the format of the image.

Select

Image Type

Digital

Title (Required)

Note: Titles are unrelated to file names and should not contain the Author's name or any competition identifiers. Titles cannot exceed 2000 characters in length.

English Spell Check

Owner Image Id

Use this optional field to identify this image within your own collection.

Wildlife

Check this box if this image qualifies as a "Genuine Wildlife" image as defined in any special competition that uses this designation. This is generally considered a subcategory of a Nature competition.

- [ ] Genuine Wildlife Image
- [x] Allow submission to any parent competition

Cancel Add this Image

If you have requested the upload of an image the upload will start when you click the "Add this Image" button. You will see an acknowledgement when the image has been successfully saved.
