Program Night April 18, 2011
Business Meeting
6C End of Year Slideshow
MEMBER CRITIQUE

Our program for April will be in three parts. 1. Business meeting pertaining to updated by-laws/constitution, 2. Viewing projected images from 6C end of year competition, 3. A member critique. This is an opportunity for you to submit three (3) images for critique by members of the club. Any images not used this evening will be saved for impromptu program in the future.

We all have images that we like, but we are not sure whether to enter them in competition. A little cropping suggestion or just verifying for the maker that this is a great image can be a lot of help. Frequently these same images show up in later competitions as winners. The critique program also helps members understand how difficult the task of judging can be.

Each member is invited to submit up to three images he or she would like discussed. Titles are read but the name of the maker is not announced. When preparing the images, please assign a number 1-3 to the images as we will critique the number one image of all members before proceeding to the second image, then the third. Images will be prepared as for our monthly competitions. One part of the critiquing will be to discuss the category for which the image is best suited.

DIGITAL IMAGES: Digital images must be sized as they would be for regular club competition. They must be labeled with a number,1-3, preceding the title. Images are to be forwarded to the club website as usual for competition. All digital images must be in .jpg format. Deadline for receiving the images is 9:00 pm, Friday, 15 April.

PRINTS: Please be sure to put your name on the back of the print. There will be a table on which to place all prints as you arrive at the meeting. Please arrive a little early so that members may have time to view the images on the table. This allows a close-up view of each image that is not possible during the critique.

CRITIQUE: Prints will be critiqued, then digital images. When the first image is viewed, the moderator will ask for comments from the floor. Your comments should include the positive aspects of the image, and then any suggestions on how the image can be improved. Please be sure to stick to constructive comments. If they wish, the maker can then comment before the next image is projected

If you have any questions, please contact Richard Ingles at (408) 981-7356. Looking forward to seeing your images on April 18th!
