

Backyard Birds

One of my stay-at-home projects during Covid was to see how many species of birds I could photograph from my house and garden. I found a variety of behaviors and personalities.

Greedy Pine Siskin with Mouthful of Seeds

Bold California Towhee Looking Belligerent

Hungry Chestnut-backed Chickadee Staring at Feeder

Busy White-breasted Nuthatch Zooming Down Tree Trunk

Wary Male Nuttall's Woodpecker Guarding Persimmon

Resigned Western Bluebird Covered with Drops During Rainstorm
